Marathahalli Bangalore, India | Immediate Joiner

PROFESSIONAL SUMMARY

Senior MEAN Stack Developer with 5+ years of experience delivering enterprise web applications across investment, telecom, healthcare, and e-commerce domains. Strong in Angular, TypeScript, Node.js, NestJS, Express.js, MongoDB, REST API design, AWS, Docker, and CI/CD. Built applications supporting 10K+ users and improved application performance by 30% through frontend and backend optimization. Experienced in microservices, authentication and access control, real-time analytics, production deployments, and Agile delivery.

TECHNICAL SKILLS

Frontend: Angular (v10-20), TypeScript, JavaScript, HTML5, CSS3, responsive UI

Backend: Node.js, NestJS, Express.js, REST APIs, microservices, asynchronous processing

Data: MongoDB, PostgreSQL, MySQL, Redis, data modeling, query optimization

Cloud & DevOps: AWS EC2, Lambda, Cognito, Amplify, IAM, Docker, Kubernetes, CI/CD, CodeCommit

Engineering: Authentication, authorization, access control, performance optimization, Git, GitHub, Postman, Jira, Agile/Scrum, AI-assisted development

PROFESSIONAL EXPERIENCE

Senior Software Developer | Tuple Technologies Pvt. Ltd.

Sep 2025 - May 2026

Project: Franchisee Club - Fractional Investment Platform | Angular 18/20, Node.js, MongoDB, Docker, CI/CD

- Built and maintained a full-stack fractional investment platform that enabled users to explore, compare, and manage franchise-based opportunities.
- Developed and optimized Angular modules and Node.js APIs for an application supporting 10K+ users, improving load times and production performance.
- Created AI-assisted analytics features that strengthened investment insights, comparison workflows, user engagement, and business decision-making.
- Implemented Docker-based deployment and CI/CD workflows while delivering production features through Agile development cycles.

Full Stack Web Developer | Arahaz Technologies (Client: Airtel)

Mar 2025 - Aug 2025

Project: Airtel Project & Cost Visualization Dashboard | Angular 14/16, Node.js, Express.js, MongoDB, REST APIs

- Developed an enterprise dashboard for project tracking, resource allocation, backend operations, and cost visualization across Airtel workflows.
- Designed REST APIs and optimized data architecture to process and manage large-scale operational datasets efficiently.
- Integrated interactive charts and real-time analytics for reporting, cost visibility, and business decision support.

Full Stack Software Developer | SHC Technologies Pvt. Ltd.

Dec 2023 - Aug 2024

Project: ZeaTool & ZeaHealth - Healthcare Platforms | Angular, Node.js, Express.js, MongoDB, REST APIs

- Built healthcare workflows for appointment booking, healthcare management, and nearby facility discovery using scalable frontend and backend services.
- Developed secure full-stack features and REST APIs with Angular, Node.js, Express.js, and MongoDB in collaboration with cross-functional teams.
- Improved application performance by 80% through targeted frontend and backend optimizations.

Software Engineer | Q3 Technologies Pvt. Ltd.

Apr 2021 - Sep 2023

Project: Nutrition Management Platform & JeweleX E-Commerce Platform | Angular, Node.js, MongoDB, AWS EC2, Cognito

- Delivered features for a nutrition management platform aligned with international food compliance standards.
- Developed secure backend APIs and services for a diamond e-commerce platform, strengthening transaction reliability and payment-processing workflows.
- Implemented authentication, authorization, and access-control mechanisms to improve application security.
- Deployed and supported scalable production applications on AWS EC2 with Cognito-based authentication and optimized backend services for real-time environments.

EDUCATION

Bachelor of Technology - Computer Science & Engineering (IBM-BDA)

2016 - 2020

JK Lakshmipat University | Computer Science and Big Data Analytics
